 for frequent Club and ongoing "Beatles" info, news and entertainment.  
 Remember, just because "Elvis has left the building," never meant there would not be new Elvis material showing up regularly.  
 The Beatlemaniaks meet every week to share "what's new with The Lads," even though it's sad to acknowledge two have already attained room temperature.

This placemat and the Program of tonight's event distributed at your table place are available by FREE DOWNLOAD at [BeatlemaniaksRock.com](http://BeatlemaniaksRock.com). (When making reservations, several maniacs requested that download feature, because they admitted they can't eat without making a mess, and they wanted a clean placemat memento... well, the truth is several of tonight's live musicians have been seen eating in public, and the photos that appeared in the Daily Sun spoke for themselves.)
